

KY State of The Race – March 2, 2026

Current public records show that Keep America Great is booked through 3/10. Based on recent polling, their advertising strategy alongside the campaign's has been successful. Traffic adjustment would be appropriate for the final days of this current flight that will hopefully be extended. It is important for Kentuckians to continue to learn about Nate's woke history – especially his disastrous record on immigration, which includes some of the following:

- Hiring the liberal Philadelphia Mayor, who pushed sanctuary cities and fought against ICE, as a top advisor
- Signing the United Nations pledge that advocated for the US to accept Middle East refugees
- Selling his company to Mexican investors
- Hiring foreigners on immigration visas over Kentuckians

The current markets should continue, along with targeted statewide streaming.
